EMERGENCY PROCEDURES FOR PROGRAM HOSTS & PARTICIPANTS

Fire Safety/Extinguisher Usage/Emergency Exits

In the event of a fire, all patrons and program participants should be asked to leave immediately. The closest exit should be used. There are sensors throughout the building that will automatically set off the fire alarm. Although the security company will notify the fire department, 911 should be called and library staff should be notified. Someone from the staff will inform you when it is safe to re-enter the library.

Please note that if an emergency exit door is used, an alarm will sound. Please do not use this type of exit for any purpose other than exiting in the case of fire. If the alarm is activated accidentally, please notify a staff person.

We own eight fire extinguishers that are located near building exit doors and also in the computer room and maintenance workshop. The extinguishers have an ABC rating with the directions for usage clearly printed on the front. **Extinguishers should be used to escape a fire-filled room rather than fighting a large, growing fire!** Extinguishing a fire should only be attempted after the above procedures have been followed and only if your personal safety is not jeopardized.

There are four Alarm Pull Down boxes, one located at each building exit door.

Medical Emergencies

In the case of a medical emergency, **do not move the person.** The person in charge of the program should immediately notify a staff person, and 911 should be called. For minor injuries, there is a medical kit with basic first aid supplies that a staff person will be happy to retrieve for you. **Be sure to wear plastic gloves when the injury involves body fluids.**

Security Measures

There are at least two staff people in the library whenever it is open to the public. For safety reasons, after dark please exit the library with another person.

Power Outages/Water Leaks

In the case of a power outage or water leak, please notify a staff person immediately.
