

Build a Catapult!

Project idea and photos from <https://stlmotherhood.com/popsicle-spoons-catapult-challenge/>

1. Take 5 sticks and stack them, securing one end with a rubber band. You'll need to wrap the rubber band around several times to make it nice and secure.
2. Slide one more stick between the bottom stick and the rest of the stack.

3. Secure the other end with a rubber band.

4. Place the spoon on top, and attach the end of the spoon to the end of the single stick with the last rubber band.
5. Try launching your pompoms!
6. Try different designs and see which launches your pom-pom the farthest.
