

Build a castle for your King & Queen using cardboard sides & TP rolls.

Using cardstock, cereal boxes, or cardboard, cut 4 long panels, each having straight bottoms & turrets along top. Use 4 TP rolls or paper towel rolls for towers, cover with construction paper drawn to look like bricks. Wrap & glue brick-looking construction paper around the towers. Cut slits on ends of long panels & tower rolls. Insert towers into castle corner walls. Decorate with flags & a drawbridge & sit your Toilet Paper roll king & queen inside castle.
