

Make A Spin Drum

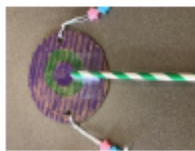

Storytellers from all around the world use drums to help tell their tales. Create a spin drum, and use it to Imagine your story!

1. Cut out the cardboard circle, and decorate both sides. Use markers, crayons, paint, tape, or whatever you would like.
2. Thread one piece of ribbon through each hole, with equal amounts of ribbon on both sides of the hold. Tie a knot close to the hole. Repeat on the other side.

3. String 2 beads on to the ribbon. Tie a double knot at the end of the ribbon. Repeat on the other side.
4. Tape your straw to one side of the circle.

5. Play your drum by rolling the straw in your hands. The beads will hit the sides of your drum in a rhythm.
