

Groundhog's head & nose

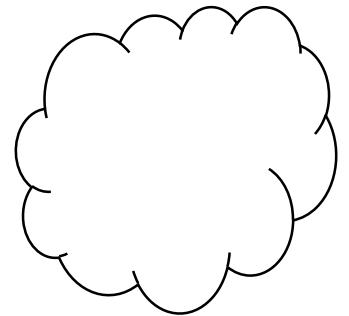

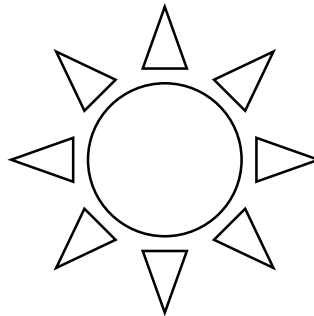

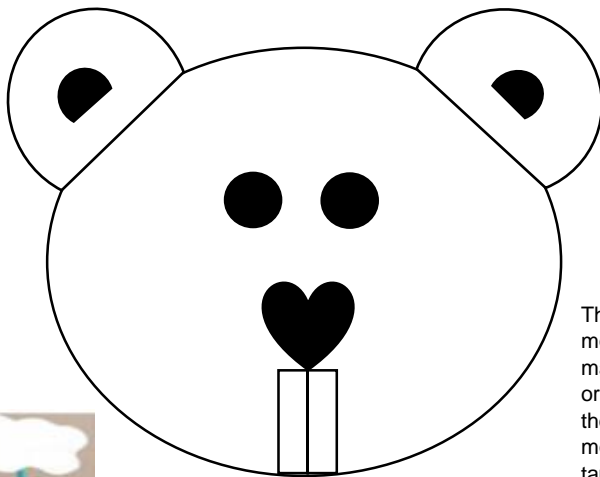

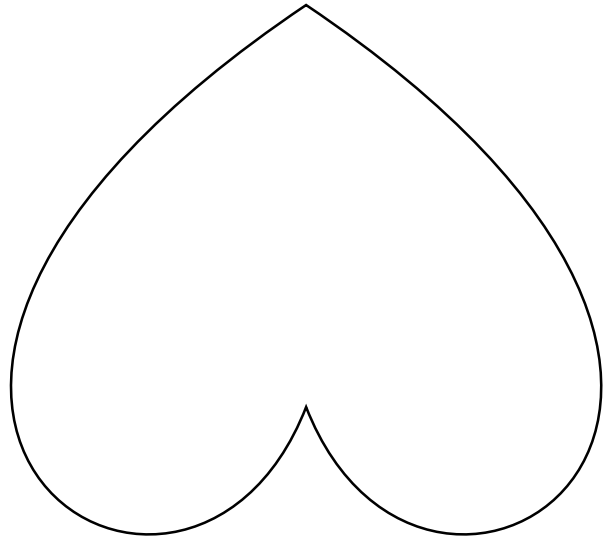

Above are eyes & teeth for big groundhog, cut out & glue like picture. Don't forget his whiskers!

Ears: cut out, then cut center line for 2 separate ears. Glue one on each side of big heart. Do the same for smaller groundhog's ears. Color your groundhog.

This groundhog is peeking out of his den. Cut out the heart shape → & then cut the ears above at the line for ears 1 on each side. Draw a heart shaped nose, 3 lines on each side for whiskers. Cut 2 circles with white paper for eyes & add the pupils. Wrap green construction paper around a toilet roll. Cut the green paper to look like grass.

This groundhog needs to decide will spring come early or winter stays for 6 more weeks? You will need a paper plate, cut in half. If you don't have that, make a circle & cut it in half. Cut out the head on the left. Use 3 pipe cleaners or straws. One to hold up the sun, one to hold up the cloud, & the 3<sup>rd</sup> one for the GH's head. You have cut a slit in the paper plate for the groundhog to move side to side to decide. Cut out the sun & the cloud use the straws & tape to the back of each & the paper plate. Use the 3<sup>rd</sup> pipe cleaner or straw to tape the head. Slide the groundhog in the slot. Use yard to tie the plate to your head
