

## Handprint Easter Lily Bouquet of Flowers: Easter Crafts for Your Children

Here you will find an adorable Easter Lily craft idea for your kids. Not only is it super fun to create, but it will also become an Easter Keepsake. Your children will use their own handprints to make an Easter Bouquet. Find out with the instructions that can be found below.

### CRAFTS MATERIALS NEEDED

Chenille 'pipe cleaner' wires: 1 yellow, 3 green

Chenille stem for ribbon, or curling ribbon

Tape

Scissors

Crayon, pencil or marker

White or pink construction paper

1 – Trace your youngsters hand onto the white paper using a crayon or pencil, cut out as many as you want for the lily blooms.

2 – Roll the handprint vertically to form a funnel shape, secure the side with clear tape.

3 – Roll each finger down to form the curls of each bloom.

4 – Cut the yellow pipe cleaner to approx. 3 inches each. Loosely curve the yellow piece to form a 'U' shape. Wrap the top of a green pipe cleaner at the bottom of the 'U'. Curl the ends of the yellow cleaner to form the center of the bloom.

5 – Insert the completed green stem into the center of the bloom and pull through.

6 – Gather the flowers and wrap the pink pipe cleaner once around the stems to fasten. Then make one loop for the ribbon and wrap around, repeat for 2<sup>nd</sup> loop.

7 – These make great surprises for MOM!

**Spring tulips** - for this craft you will need: a printer, markers or crayons, scissors, drinking straws-paper or plastic (preferable paper) and a hole-puncher that a straw can fit through the hole it makes. First color the tulip flowers and the tulip leaves. Carefully cut out the flowers, leaves & vase. When you cut out the vase, cut the outside dots first. Fold the paper in half & match up the sides of the vase. Hold up the paper to the light helps to line up the vase shape. Cut the vase out & glue the outer edges. Next, the tulips need to be folded back & forth like an accordion. Use the hole-puncher to punch a hole in the center of the folder paper. Push the straw through the holes. If you have green pipe cleaners from last week's rose craft, you can use them in place of the straws. Happy Easter!

Print this page then fold in half. Hold the page up to the light to match the edges. Cut out both pictures at 1 time because the page is folded. If that's too hard, cut one egg shape at a time. Match up the shapes then glue together. Color the chick inside and color the outside too like a decorated Easter egg. **On the next page**, there are 4 egg groups to cut out & decorate. It will be easier to cut out all 4 groups 1<sup>st</sup>, match up the edges on each & glue together, then cut out & color. Happy Resurrection / Easter Day!

## paper plate CALLA LILY CRAFT

theresourcefulmama.com

This craft requires small paper plates, green paper straws, yellow pipe cleaners or green paper rolled up tight & glue or tape. You can paint or color the small paper plates. When the plates are dry, grasp a plate in your hand, roll tight at the bottom of the plate, and remember to leave a space for the stem to fit through & keep the top open. Glue or tape the rolled plate at the bottom, see the picture above then put a yellow pipe cleaner into a green straw or rolled up green paper. Slide the stem into the plate opening allowing the yellow pipe cleaner to show. Place in the vase above for an Easter bouquet.

This craft requires toilet paper rolls, green & color construction papers, pencil, scissors & glue. Size up green construction paper to fit around 1 or 2 paper roll & glue at the long end. Using color paper, trace your hand then with supervision from mom, cut the handprint along the line drawn. Make 2 cuts on each side of the top of the paper roll and fit your handprint into the slots; your fingers are the pedals. To add leaves, cut the shape below & color green & glue to the roll like in the picture.
